Show ALL Work!

<u>Directions</u>: For your warm up, write "Agree" or "Disagree" in the box to the left of each equation. At the end of class, fill in the box to the right of each equation with "I still agree/disagree because..." or "I now agree/disagree because..." Be sure to explain why you agree or disagree!

Before the lesson	The equations	After the lesson
	x - 5 = 29 $x = 24$	
	-8x = 128 $x = -16$	
	x = 45 - 4x $5x = 45$ $x = 9$	
	$\frac{4x-2}{6} = 5$ $4x-2 = 30$ $x-2 = 7.5$ $x = 9.5$	
	3(x-5) = 2(x+1) + x $3x-15 = 2x + 2$ $x-15 = 2$ $x = 17$
